(e) Procurement officers are authorized to make the determinations under 14.407-3 (a), (b), (c) and (d).

1814.407-4 Mistakes after award. (NASA supplements paragraph (d))

(d) Determinations shall be made by the procurement officer.

1814.408 Award.**1814.408-1 General.**

(1) A notice of award as a specific document is used when the contracting officer needs to inform a responsible bidder that its offer was determined to be the most advantageous to the Government (considering only price and price-related factors) and that the formal award will be made upon satisfaction of specified pre-performance conditions.

(2) The notice of award is not a contractual instrument. It does not authorize the successful bidder to perform and, in itself, does not obligate the Government to award a contractual document. Its limited purpose is to provide: evidence of the Government's selection of the successful bidder; instruction to that bidder to satisfy specified pre-performance conditions; and a statement that the Government intends to award the contract to the successful bidder upon satisfaction of these conditions if a contract is

awarded as a result of the invitation for bids.

(3) Use of a notice of award is optional. The contracting officer may issue the award document itself without first issuing a notice of award. However, there are instances when a notice of award should be considered, for example, in construction contracts where performance or payment bonds are required. In such cases, the most cost effective technique is to require only the successful bidder to provide the necessary bonds. The notice of award advises the successful bidder to provide the bonds, and it also serves as formal evidence from the Government of the impending award if such evidence is required to secure the bonds.

(4) The notice of award shall not be issued unless bids have been evaluated and a selection made, and a definitive contract document is ready for execution upon satisfaction of the conditions specified in the notice. Upon satisfaction of these conditions, the approved and executed contract instrument shall be provided to the successful bidder.

(5) Since the notice of award is not a contractual document authorizing performance, the period of performance of the resultant contract shall not be based on the date of issuance or receipt of the notice of award. The period of performance specified in the contract shall be based on some other reference point, such as the date the contract is provided to the successful bidder, a mutually agreeable effective date of a later authorization to proceed date.

(6) The notice of award can be issued by any formal written means such as a letter, telegram or electronic means. The notice should be substantially the same as the following format.

Format

Subject: Notice of Award—Invitation for Bids (IFB) (a). This notice is to advise you that your bid (b) in response to the subject IFB has been determined to be the most advantageous to the Government (considering only price and price-related factors). It is the Government's intention to award you a contract in the amount of (c) for this effort pending satisfaction of the following pre-performance conditions: (d)

Evidence (e) of satisfaction of these conditions must be provided to the contracting officer by (f). In the event these conditions are

Pt. 1815

not satisfied by this date, the Government reserves the right to award the contract to the bidder who submitted the next most advantageous bid.

Please note that this notice of award is not a contractual document. It does not obligate the Government to award you, or any other bidder, a contract relative to the subject IFB, and it does not authorize you to proceed with contract performance or incur costs pursuant to such performance. Any costs incurred for contract performance prior to your receipt of a fully executed contract document are at your own risk and are not recoverable under any Government contract should the Government fail, for whatever reason, to award you a contract in response to the subject IFB.

If a contract is awarded after evidence of satisfaction of the pre-performance conditions listed above is provided to the contracting officer by the specified due date, the date of commencement of work will be provided with the formal award. This date will be based on (g).

NOTES.—The contracting officer shall insert, where shown, the following information:

- (a) Identification of the IFB by number and title.
- (b) Identification of the contractor's bid.
- (c) The award price.
- (d) The preperformance conditions (e.g., any required payment and performance bonds).
- (e) The evidence required to satisfy the pre-performance conditions (e.g., the actual payment and performance bonds).
- (f) The date by which the evidence must be provided to the contracting officer.
- (g) Identification of the date for commencement of performance. The period of performance of the contract shall not be based on the date of issuance or receipt of the notice of award. It shall be based on the date the contract is provided to the successful bidder, a mutually agreeable effective date, or a later authorization to proceed date.
